Animal Protection

Animal welfare in the garden

Nature conservation is very important to us. With our animal welfare products, we want to inspire people to enjoy nature in their own gardens while also protecting the habitat of our native wildlife.

Each of our products has been developed and tested by experts. German and European nature conservation associations offer our products.

Sustainability

Denk animal welfare products are made from CeraNatur® or Granicium®. These ceramics, made from regional, natural raw materials, are very stable, permanently frost-resistant, climate-regulating and do not mould. During the day, the ceramics store the sun's heat and release it again at night.

All our products are carefully handmade in Germany. Their high quality and durability ensure sustainable environmental protection. That is why we offer a 15-year material guarantee on our ceramics.

Bird Bath

Our classic birdbath has a rough edge for a firm hold, a large water area and a central island for small birds and insects. Species-appropriate and stylish for summer and winter. With or without stainless steel stand.

Bird Bath *Granicium®* or *CeraNatur®*

Ø 38 cm | H 55 cm (with Stand) | 5 kg
15-year material warranty

Around Bird bath

A hanging water station, modern and cat-proof. Birds find a secure footing on the rough ceramic. Stainless steel and durable ceramic.

Around Bird Bath *Granicium®*

Ø 28,5 cm | H 65 cm | 5 kg
15-year material warranty

Around Bird Table

Around can be placed on the balcony, terrace or hung directly from a tree. The durable *Granicium®* ceramic is frost-proof and UV-resistant. As a bird feeder, there are two holes in the bowl for drainage.

Around Bird Table *Granicium®*
Ø 28,5cm | H 65cm | 5kg
15-year material warranty

Bird Table

The patented *bird table* is a species-appropriate feeding station that can be approached from all sides. Its open design makes the *bird table* ideal for bird watching and ensures that the birds feel safe. With or without a stand, with hanging option on request.

Bird Table *Granicium®* or *CeraNatur®*
Ø 37cm | H 64cm (with Stand) | 6,7kg
15-year material warranty

Feeding Roof

The *feeding roof* is simply hung on a branch and is suitable for fat balls and other fatty foods. The *feeding roof* is made of particularly hard-fired CeraNatur®. This ceramic is impact and shock resistant and permanently frost resistant.

Feeding Roof CeraNatur®

Ø 14,5 cm | H 20cm | 0,3kg
15-year material warranty

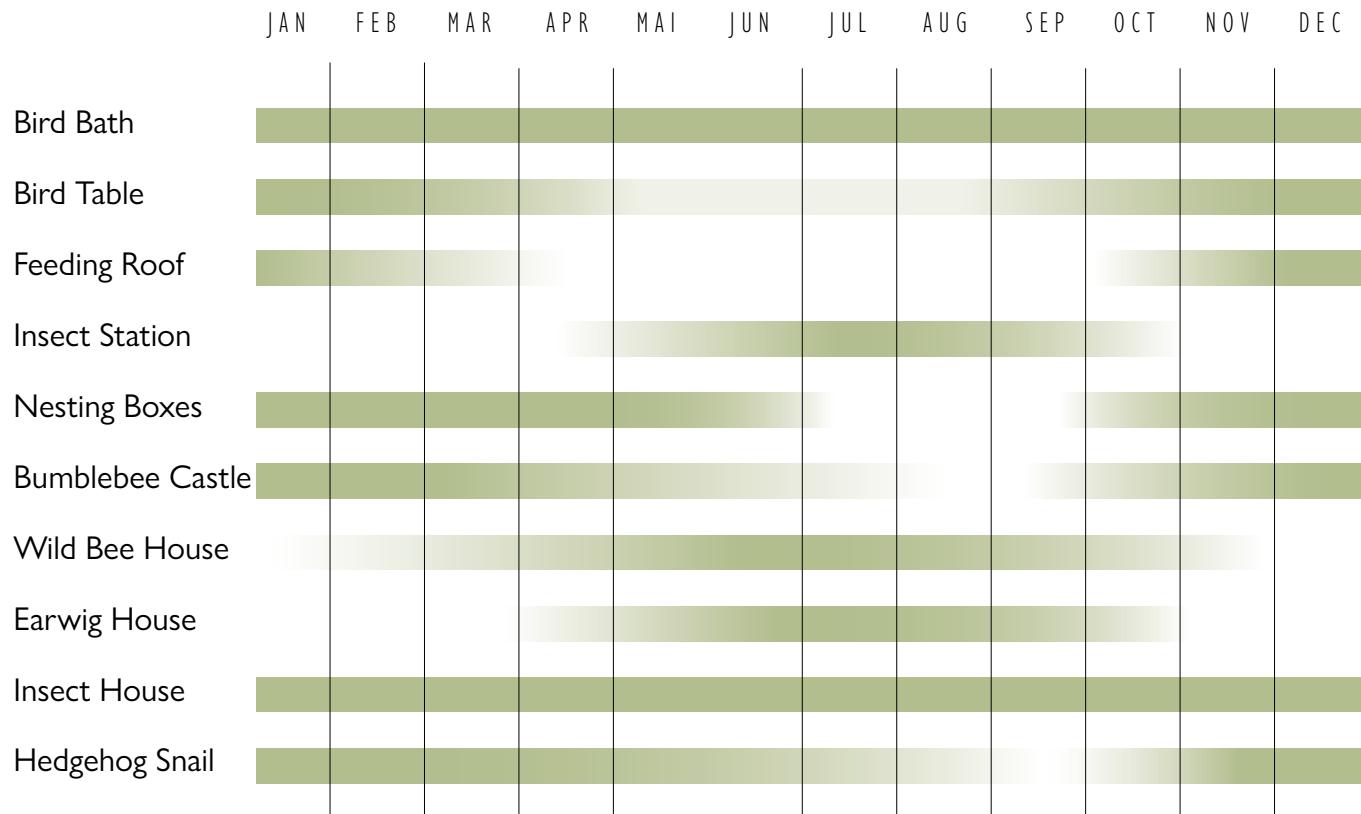

Nesting Holes for wrens and tits

Wrens and blue tits love our climate-regulating nesting box. It is safe from woodpeckers and martens, and comes with a rope for attaching it to trees without damaging them. The ceramic is free from harmful wood preservatives.

Nesting Hole CeraNatur®

Ø Hole 2,8 cm | Ø 18cm | H 14cm | 2kg
15-year material warranty

seasonal calendar

Nesting Box for titmice

The *nesting box* is made of two parts from CeraNatur®. Both colours have been chosen so that breeding birds recognise the *nesting box* as a natural breeding cavity and accept it. The frost-resistant ceramic has a climate-regulating effect and is easy to clean.

Nesting Box CeraNatur®

Ø Hole 3,2cm | L 23,5cm | B 17,5cm | T 20,5cm | 3,0kg
15-year material warranty

Insect Station

Butterflies, bees and other insects are particularly important for the biological balance. However, natural food sources are often lacking. With our *insect station*, you can provide useful flying insects with food and water. With or without a stand.

Insect Station Granicum®

Ø 26 cm | H 3,5 cm | 1,9 kg
15-year material warranty

Flower Wild Bee House

The *wild bee flower* has 48 nesting tubes of varying diameters for numerous insect species. The *wild bee flower* can be easily hung from trees, fences, posts, etc. using the rope provided.

Flower Wild Bee House CeraNatur®
Ø 18 cm | H 7,2 cm | 3,3 kg
15-year material warranty

Wild Bee House

Wild bees are essential for pollination, but their population is under threat. Our woodpecker-proof nesting aids made of durable natural ceramic are suitable for the most common species. Simply hang them up, cleaning is not necessary.

Wild Bee House CeraNatur®
L 18 cm | B 11,5 cm | T 6,5 cm | 1,8 kg
15-year material warranty

Bumble-Bee Castle

With a *Bumble-Bee Castle* in your garden, you can do these important insects a favour and reward yourself with a bountiful fruit harvest. Our natural nesting aid can be used in both summer and winter. With nesting wool and wax moth protection.

Bumble-Bee Castle *Granicium*[®] or *CeraNatur*[®]

Ø 27 cm | H 16 cm | 5,5kg

15-year material warranty

Earwig House

Earwigs may look dangerous, but they are only dangerous to aphids. Between April and October, they go to work at night and devour the pests on roses and vegetables. During the day, they sleep in their *Earwig House*.

Earwig House *CeraNatur*[®]

Ø 3 cm | H 12 cm | 0,3kg | Set of 3 pieces

15-year material warranty

Insect House 3-in-1

Our decorative 3-in-1 insect house combines a *earwig house*, *lacewing house* and *insect watering place*. This ensures that these beneficial insects will settle in your garden all year round.

Insect House 3-in-1 *CeraNatur*[®]
Ø 13,5 cm | H 16 cm | 0,75 kg
15-year material warranty

Hedgehog Snail-Shell

Hedgehogs can safely hide, nest and hibernate in the snail. The thick, climate-regulating ceramic protects the hedgehog family from the weather and curious dog noses all year round.

Hedgehog Snail-Shell *CeraNatur*[®]
Ø 35 cm | H 16 cm | 4,5 kg
15-year material warranty
